Here are your

Five levels. Check them off. Level up. Tap any tool name to open it.

Bookmark this page. Come back and keep going.

Before you start: The Setup

0 of 4

- [ ] Mac with an M1 chip or newer and 16GB of memory. No Windows. No iPad.
- [ ] Two monitors. One for you, one for your agents.
- [ ] Wispr Flow. Talk, don't type.
- [ ] Fathom or Granola. Notes on every call.

Level 1. Operator: Automate Your Mac

0 of 4

- [ ] Orca. The app where you talk to your agents. It has a phone app too.
- [ ] Claude Code. Your manager.
- [ ] Codex. Your second developer.
- [ ] Obsidian. The agent's second brain.

You are now dangerous because you say “clean my Downloads and write me a report” and it happens.

Level 2. Web Developer: Ship a Page That Makes Money

0 of 7

- [ ] Build a website with AI. Use Claude Code.
- [ ] Buy a domain at Porkbun.
- [ ] Host it on Cloudflare.
- [ ] Copy any website with HTTrack.
- [ ] Stripe. Payments.
- [ ] Resend. Email.
- [ ] Railway. Your CRM, funnel, course, and automations in one place.

You are now dangerous because you can build a page that takes payments.

Level 3. Marketer: The Content Machine

0 of 6

- [ ] API keys. A key is a password that lets your agent use a tool. You get it in each tool's settings.
- [ ] Kie.ai. Images with Nano Banana Pro or GPT Image. Video with Seedance.
- [ ] fal.ai. Make a talking avatar. Add ElevenLabs for your voice.
- [ ] Zapcap. Captions.
- [ ] Shotstack. Video editing.
- [ ] Zernio. Post everywhere and run your ad account.

You are now dangerous because you can make your own ad images and videos.

Level 4. Automator: Your AI Agents

0 of 5

- [ ] Hermes assistant, right inside Orca.
- [ ] Google Calendar + TidyCal. Scheduling.
- [ ] Firecrawl + Tavily. Web research.
- [ ] Playwright. Lets your agent click around websites for you.
- [ ] OpenRouter. One place to use many low-cost AI models.

You are now dangerous because you say “book it, email them, pull the numbers” and it does.

Level 5. AI Jedi: Use AI to Make Money

0 of 8

- [ ] Build your own website and your own funnels. One funnel for leads. One for sales.
- [ ] Automated email and text follow-up.
- [ ] Turn visitors into leads. Build free-gift pages with Claude Code.
- [ ] Craft an offer people cannot say no to.
- [ ] Run paid ads on Meta and Google. Your agents help you build them, set them up, and run them.
- [ ] Content automation with your avatars. Kie.ai for images and video. fal.ai for the avatar.
- [ ] Your own course and community platform on Railway.
- [ ] A team of agents.

You are now dangerous because you have agents that help with the work.

The NO List

Do not buy, learn, or install these. Every one is a middleman between you and your agents. Agents already do what these charge you for.

- **No AI "easy buttons":** Grokbot, Muse, Dots, CoWork, Replit, Base44, Lovable, browser AI tools, ChatGPT as your main tool.
- **No AI video middlemen:** OpenArt, Higgsfield. Your agents call Kie.ai and fal.ai directly.
- **No website builders:** Wix, Squarespace, WordPress, ClickFunnels, Kajabi, Skool.
- **No bloated CRMs:** GoHighLevel, Salesforce, HubSpot, Stan, Beacons.
- **No task apps as your hub:** Asana, ClickUp, Slack.
- **No glue tools:** Zapier, Make, n8n.
- **No wrong hardware:** Windows, Linux, iPad, Android.
